

# Lift-Washbasin

Electrically height adjustable  
and mechanically incline  
adjustable washbasin.

Being helped is good  
but to help yourself is  
better

Through its uncomplicated operation the lift-washbasin is especially appropriate for children, elder people, disabled persons and for the use in therapy and health centres. By pushing buttons which are inserted into the handle you can adjust the lift-washbasin easily to your personal needs. The height of the washbasin is electrically adjustable, its tilting mechanically.
